

About Us

Noyes prides itself in providing friendly and personal service coupled with a thorough and professional knowledge of all of its products. We sell a large range of optical equipment, cameras and photographic accessories, and also have a digital imaging centre

Situated in the centre of Kenilworth, Cape Town, South Africa on the corner of Main Road and Mains Avenue, Noyes Photo Pharmacy is a well-established Pharmacy and Photographic dealer that has been in the photographic business since 1933

We see ourselves as not just another photographic dealer but rather a place where every customer gets personal and professional service. Our sales personnel are all highly trained and extremely knowledgeable about the products we sell. We attempt to always provide the best possible advice to clients in the selection of the correct equipment to suit their needs. Our sales staff will always first attempt to ascertain what the requirements of the customer are before suggesting a product to suit that requirement..

We have a particularly wide range of telescopes and accessories and we believe that our Sales team, led by Adri Louw, is the best equipped and most knowledgeable when it comes to telescopes. Adri has many years of experience in the field of astronomy and has had his articles published in astronomical journals and publications. His vast knowledge of his subject places him in the position to give the best possible advice when selecting a telescope for astronomical use. Our wide range of models and accessories makes it possible to meet almost all needs from the beginner to the most serious astronomer. We also stock a range of Spotting scopes and import the premium quality Vixen Geoma which matches the performance of the better known quality European Brands.
